

Something New Is Sliding Into 2026

Earthwise KC Is Now Offering A New Product

We're excited to share some big news from one of our Earthwise partners!

Effective January 1, 2026, Earthwise KC began a soft launch of a brand-new product: the EWKC Patio Door, proudly manufactured right in Kansas City. This addition comes directly from listening to their customers, who wanted a high-value patio door without the hassle of long lead times or costly shipping.

While producing locally, Earthwise KC is raising the bar on quality, efficiency and service. We love seeing our partners innovate to better serve their communities, and we're thrilled to celebrate this next chapter with the Earthwise family.

"We are very excited to be able to provide the Patio Door to our Dealer and Distributors. This Patio Door marks the next step of our Company's growth and addresses the increase in demand for our hometown Earthwise of Kansas City products."

— Jim White
